

RICHARDSON

TEAM CATALOG

2024-2025

WHERE TRADITION MEETS INNOVATION

Since 1970, we've been on a mission to outfit athletes and help elevate their game. As our 55th anniversary approaches, our commitment to innovation is stronger than ever, bringing athlete-informed designs to an expanded line of custom and stock products.

This season, we're proud to introduce our first ever softball line, created with the same attention to detail and innovation we've brought to baseball. Our new line of Stock baseball and softball uniforms, now offers the same attention to quality and style as our custom uniforms for at once delivery. And a new line of stock performance apparel delivers team focused apparel ideal for the gym, the sideline and pre game, post game wear.

At Richardson, we're relentlessly focused on developing headwear, uniforms and apparel that give you a competitive edge.

Wear The Best!

GLOSSARY

UNIFORMS & APPAREL

3-BUTTON PLACKET

Our 3-button placket gives our polo design an adjustable fit, ensuring versatility and comfort on the golf course or out for a casual day with friends.

4-WAY STRETCH FABRIC

Our 4-Way Stretch Fabric allows Richardson apparel to move effortlessly with your body in all directions, ensuring superior comfort and performance for any activity.

ANTI-MICROBIAL FINISH

Our anti-microbial finish means that our fabric helps fight odor-causing bacteria, mold, and mildew, ensuring the garment stays fresher longer—no matter the challenge.

ATHLETIC FIT

Tailored closer to the body to accentuate an athletic build, this cut offers a more streamlined fit.

DOUBLE-LAYER KNEE

Our double-layers knees give reinforced protection and durability, ensuring reliability and resilience indemanding gameplay.

DRYVE LT

Dryve LT is our lightweight, textured fabric designed for maximum breathability, featuring Stay-Dri technology and 2-Way Stretch for unparalleled comfort and flexibility.

FLATLOCK STITCHING

With flatlock stitching, our apparel provides a smooth and comfortable feel against the skin, ensuring a distraction-free fit during intense workouts or long-distance runs where every detail matters for peak performance.

FLEX-GRIP

Flex-Grip waistband provides a non-slip grip, preventing pants from sliding down or shifting during play

FLUORINE-FREE WATER RESISTANCE

Incorporating fluorine-free water resistance, our garments offer protection from rain and moisture without armful chemicals, ensuring eco-friendly performance for outdoor adventures without functionality or sustainability.

FLX

Our ultra-soft FLX fabric is a flat knit, medium weight material with 4-way stretch, designed for ultimate comfort on the move.

FLY-LT

Our Fly-LT fabric is a lightweight, flat knit with mechanical stretch, perfect for peak performance on the diamond.

FLY-X

Fly-X is our lightweight, textured knit fabric with mechanical stretch, engineered for ultimate performance.

KANGAROO POUCH

The kangaroo pouch is a pocket fabric panel that is sewn on the outside of the main body of fabric of the front lower half of the garment, offering convenient storage for essentials—giving you easy access to your belongings while on the go.

HYPR TWILL

Featuring the same tightly woven pattern as classic twill, this is our premium version of durable tackle twill.

IGNITE LT

Available in both headwear and apparel, this lightweight fabric is a durable, woven polyester that stretches for improved fit and comfort while keeping athletes cool with Stay-Dri moisture management technology.

KNIT-IN ARCH SUPPORT

A key feature in Richardson socks, our knit-in arch support gives your foot stability and ensures a good fit on the field.

LOW-RISE FIT

Starting below the waist, our low-rise fit pants sit at the hips to provide greater comfort for female players.

MATRIX

Available in both headwear and apparel for a headto-toe look, this pin-dot mesh is a ventilated fabric that stretches for an improved fit and features Stay-Dri moisture management to keep athletes cool by accelerating the natural evaporation process.

MAX-MOTION ENGINEERING

This suite of performance-focused construction methods - including raglan sleeves and strategically placed gussets - provides enhanced range of motion and distraction-free fit.

PIPING

Narrow strips of fabric are sewn along the seams or edges of the cap or uniform for a decorative element to accentuate the design's lines and add visual interest. Piping can highlight the shape of the product, emphasize its structure, and provide a refined, finished look to the overall design.

PRODURA

This premium, heavyweight performance polyester knit features 2-way stretch and Stay-Dri moisture management, making it ultra-durable.

PROTEK

This durable knit performance polyester features a flat, clean face and incorporates Stay-Dri moisture management technology to keep you dry.

SCUBA HOOD

Our scuba hood is designed to provide full coverage from the elements, ensuring protection and comfort during outdoor activities braving the rain or wind.

SET-IN SLEEVES

Set-in sleeves provide a tailored look while allowing unrestricted movement, ensuring both styles and flexibility on the diamond.

SLIDING LINER

Incorporating a sliding liner into our baseball pants enhances durability and protection slide after slide, making them perfect suitable for baseball and softball athletes.

STANDARD FIT

This fit is designed to accommodate a variety of body types, offering a looser fit around the arms, chest, shoulders, hips, and waist.

STAND-UP COLLAR

Our stand-up collar gives our polo all-day style from the golf course to dinner with the family.

STAY-DRI MOISTURE MANAGEMENT

Breathable performance polyester wicks moisture away from the body to the outer area of the fabric to accelerate evaporation. Faster evaporation helps keep the fabric dry and light so the wearer stays ready for whatever comes next.

STRAIGHT FIT

A straight fit pant creates long, clean lines from the waist to the ankle, with the material falling evenly without tapering.

TAILORED FIT

Pants with a tailored fit are more narrow to the ankle and close-to-calf for a streamlined, modern look.

TUNNEL POCKET

The tunnel pocket features hand holes cut into the main fabric of the lower from side of the garment, with the pocket panel sewn inside. The design offers quick, discreet storage, perfect for keeping essentials close while maintaining a seamless appearance on the go.

WATER REPELLENT

A combination of tightly woven fabrics and hydrophobic treatments repels water to help keep you dry and protected from the elements.

GLOSSARY

HEADWEAR

5 PANEL

The five-panel is made with a flat or pinched front, making it the perfect construction for models with a printed front panel. The seamless design also makes it one of the easiest cap styles to decorate.

6 PANEL

Our six-panel style is inspired by classic baseball caps and is as authentic as the game itself. Available in a wide range of profiles and fits, this traditional cap style is the go-to for both players and headwear enthusiasts.

7 PANEL

Richardson's unique, modern seven-panel style offers a large, seamless front panel with a curved top seam, creating a fashion-forward design that's great for a wide variety of decorations.

BILL

The bill is located at the front of the cap and extends outward to provide shade from the sun. It is typically made from a material that maintains its shape and can be flat or curved, depending on the cap design.

BUCKRAM

This stiffer material, fused behind a cap's front panels, provides structure and shape, creating a crisp appearance and ensuring the cap retains its form over time.

BUTTON

A small, usually rounded part located at the top center of a cap's crown, the button secures the point where the cap's panels converge. Beyond its structural role, it can also be a decorative feature that complements a cap's overall color design.

COMFORT STRETCH SWEATBAND

Our stretch-fit sweatband incorporates stretch fibers to simplify sizing and provide wearers with a comfortable fit all day, every day.

CROWN

The upper part of a cap that covers the head, forming the main body. Typically composed of panels that are sewn together creating the shape and structure of the cap. The crown's design, height, and construction are crucial in determining the cap's overall style and fit.

EYELET

These small holes, typically located around the crown, provide ventilation, allowing air to circulate and reducing heat buildup. They are usually reinforced with metal, stitched rings, or silicone and can serve as a subtle color hit to coordinate with the cap's overall color design.

FULL PRO

Our Full Pro profile is an athletic shape that's taller and wider than our Mid Pro, but with a lower crown height than our Hi Pro. This profile also has a deeper fit in the back panels compared to Mid Pro.

HI PRO

The Hi Pro profile is our nod to classic baseball crown shapes. It features a deeper all-around fit with tall front panels.

IGNITE LT

Available in both headwear and apparel, our lightest-weight fabric is a durable, woven polyester that stretches for improved fit and comfort while keeping athletes cool with Stay-Dri moisture management technology.

LASER PERFORATION

A testament to our dedication to style and functionality, these precise, cleanly-cut openings enhance breathability, merging precision craftsmanship with modern style.

LITE

Our lightest-weight fabric, Lite is woven with a subtle texture on its face for a modern, athletic look, while Stay-Dri moisture management technology keeps you cool and dry.

LOW PRO

Low Pro is our lower profile structured crown shape. Featuring buckram-lined front panels, this profile offers a more tailored fit.

MATRIX

Available in both headwear and apparel for a head-to-toe look, this pin-dot mesh is a ventilated fabric that stretches for an improved fit and features Stay-Dri moisture management to keep athletes cool by accelerating the natural evaporation process.

MID PRO

Mid Pro is our most popular structured profile and is found across our product line, from performance baseball to the iconic 112. Over 50 years of cap-making experience has perfected this shape - not too high, not too low, just right.

PIPING

Narrow strips of fabric are sewn along the seams or edges of the cap or uniform for a decorative element to accentuate the design's lines and add visual interest. Piping can highlight the shape of the product, emphasize its structure, and provide a refined, finished look to the overall design.

PRECURVED

Precurved bills are shipped factory-shaped with the perfect curve, meaning the cap is ready to wear with a natural, ergonomic fit that conforms to the shape of the wearer's face, offering better sun protection and a classic look.

PRO MESH

Pro Mesh is our durable, heavy-weight, knitted mesh that features bird-eye patterning to improve ventilation.

PRO TWILL

Slightly stiffer and a bit heavier than our standard cotton twill, Pro Twill is designed to stand up to whatever the athlete can throw at it.

PULSE

Our premium, on-field performance polyester is knitted for a clean, technical look that stretches to deliver a perfect fit, while Stay-Dri moisture management technology, wicks away sweat to keep players cool in the heat of the game.

R-FLEX

R-Flex stretch in the sweatband and crown makes sizing simple, improving comfort and performance during long periods of wear.

RELAXED

Relaxed is our lowest profile, unstructured shape that fits closer to the head for a more casual look and feel.

SANDWICH INSERT

A contrasting strip of material is inserted along the edge of the cap's bill between the top and under panels, adding a subtle yet distinct color pop to the cap and a dynamic way to customize your team's look.

SOFTSNAP ADJUSTABLE BACKSTRAP

Our Softsnap adjustable backstrap is engineered to be softer and more flexible than the standard plastic alternative. Made from thermoplastic polyurethane, the TPU material is similar to a mix of plastic and rubber, making it durable and smooth for ultimate comfort.

SPORTMESH

This tightly knitted stretch mesh gives a clean, technical appearance with improved fit characteristics for advanced performance and comfort during all-day wear.

STANDARD SWEATBAND

Made from soft, durable cotton, our Standard sweatband provides all-day comfort while keeping sweat out of your eyes.

STAY-DRI SWEATBAND

Moisture-wicking technology where you need it most - the sweatband - to keep you cool, dry, and comfortable.

SURGE

Designed to replicate the look and feel of traditional wool serge (once the standard textile used for making baseball caps) this performance-spun polyester features Stay-Dri moisture management technology and impressive durability thanks to its woven construction.

U-FORM

Exclusive to the PTS line, this memory bill holds its shape so players can wear it curved, flat, or anywhere in between for a personalized look and improved protection from the glare of the sun.

UNDERBILL

The underside of a hat's bill or brim. This area can be designed with various colors, patterns, or textures, distinct from the rest of the cap, adding an additional element of style. The underbill's color and material can also reduce glare in sunny conditions.

VISOR

Visors are designed to shield the sun from your eyes while keeping your head cool. Smaller, simple decorations tend to work best on this style of headwear.

SIZE CHARTS
